GitHub	V4NNUTH
Address	Steung Mean Chey 2 Commune, Mean Chey District, Phnom Penh

Education

2020 – Present Bachelor Student

Institute of Technology of Cambodia , Phnom Penh

2014 – 2020 High school Student

Pnhey Mean High School, Takeo

2008 – 2014 Primary school Student

Pnhey Mean Primary School, Takeo

Languages

- Khmer : 100%
- English : 80%

Experiences

- **Research and Data Analytics Laboratory (AMS) Intern Year 3** (August-October) 2023
 - Rice Leaf Diseases Detection with CNN
 - Deploy on Website with Docker
- **R&D WiFi CSI Data with professor from Japan** 2023 - 2024
 - Collect CSI Data
 - Training with Machine Learning
 - Presenter of 13th Scientific Day of ITC
 - Public Paper CSI Human Movement Detection
- **CamCyber Training** 2023 - 2024
 - Full Stack Training
 - DevOps or MLOps Training
- **CamCyber R&D** 2024 - Present
 - Develop KhmerOCR Recognition and Detection with Deep Learning
- **CamScience R&D** 2024 - Present
 - Develop system for collect data from Sensors.
 - Develop models for checking Plant Growth.
- **Self R&D** 2023 - 2024
 - Contribute open-source repositories of Computer Vision on Github.
 - Analytics with Car Price Prediction.

COMPUTER AND PROGRAM SKILLS

- **Programming Language:** Python, R, SQL, C/C++, Java
- **OS :** Window , Ubuntu, Jetson Nvidia.
- **WebScraping :** BeautifulSoup, Selenium, Spider
- **Data Engineering :** Collection , Cleaning, Processing.
- **Data Visualization :** Matplotlib, Seaborn, PowerBI.
- **Data Analysis :** EDA , Hypothesis Testing, PGM.
- **Machine Learning :** Regression, Classification.
- **Deep Learning :** Computer Vision , NLP
- **BigData :** PySpark , Apache Hadoop
- **DevOps or MLOps:** Docker, CI/CD, Jenkins.
